

Rockonomix Rubric to Success!

Want to submit a winning project? Below is the grading scale and some samples of past submissions so you know what we are looking for in your project. Think outside the box and remember that economics is more than just about making money! Think about all the topics we have covered in class and relate them to the world around you (If “making money” is the central theme of your video, you will only receive 1 point for creativity). Don’t forget to have fun and let the best team win! Good Luck!

- All Submissions must include the following or the score will be an automatic *ZERO*:
